To imagine, develop and create a form which is completely new to the world is a huge responsibility requiring careful consideration.

Francesca Masiero
Vice President

La forma di un oggetto non ne dichiara solo la funzione ma, dice il modo in cui guarda al mondo colui che l'ha realizzata. I disegni che tracciamo, la materia che scegliamo perché diventi un oggetto da impugnare mille volte e ancora, sono un simbolo che rimanda al pensiero di chi quegli oggetti li ha voluti. Quindi, chi crea ha delle responsabilità. A maggior ragione, le forme che immaginiamo, sviluppiamo e produciamo per "l'abitare senza barriere" possono dirsi riuscite nella misura in cui non lasciano intravedere nello sfondo alcun utente particolare ma, solo uomini che abitano spazi in modo confortevole. Vogliamo l'eccellenza accessibile a tutti. Anche a chi non ha problemi ad arrivare fin là.

The form of an object not only establishes its function, it also gives a clear indication of the designer's view of the world. The designs we draw, the materials we choose to create an object to be held a thousand times and more, are symbols that materialize from the thoughts of whom first imagined them. This means, that with creation, responsibility comes. Even more so, the forms we imagine, develop and produce for a "life without barriers" can be considered a success only if they are understood to be for everyone to live spaces comfortably and not for a particular category of user. We wish to make excellence accessible to all - even to those who can reach up easily.

La forme d'un objet n'en décline pas uniquement la fonction, mais indique l'idée de son créateur sur le monde. Les dessins que nous traçons, la matière que nous choisissons pour en faire un objet à empoigner mille fois et plus, sont un symbole renvoyant à l'imagination de celui qui a voulu ces objets. Ainsi, tout créateur a des responsabilités. À plus forte raison, les formes que nous imaginons, développons et produisons pour l'«habitat sans barrières» sont jugées réussies dans la mesure où elles ne laissent entrevoir dans le fond aucun utilisateur particulier mais uniquement des hommes habitant les espaces dans le plus grand confort. Nous exigeons l'excellence accessible à tous. Même à ceux qui peuvent aisément arriver jusqu'ici.

De vorm van een voorwerp duidt niet alleen op de functie ervan, maar zegt ook iets over de kijk die degene die het gemaakt heeft op de wereld heeft. De ontwerpen die we schetsen, het materiaal die we kiezen opdat het een voorwerp wordt dat nog meer dan duizend keer zal worden vastgepakt zijn een symbool dat ervoor zorgt dat je aan de persoon denkt die deze voorwerpen zo heeft gewild. Dus wie ontwerpt heeft zo zijn verantwoordelijkheden. Juist daarom kunnen de vormen die wij bedenken, ontwikkelen en produceren om "zonder barrières te wonen" als geslaagd beschouwd worden in die mate dat ze nergens op de achtergrond een bepaald soort gebruiker laten doorschemeren maar slechts mensen die op comfortabele wijze wonen. Wij willen dat de excellentie toegankelijk is voor allemaal. Ook voor wie geen problemen heeft deze te bereiken.
