ITALIANO

Se avete aperto una porta, vi siete affacciati su uno spettacolare vuoto urbano o vi è accaduto di attraversare ambienti liberi dagli irritanti intralci delle barriere architettoniche allora, avete impugnato una nostra idea. Siamo il brand dell'acciaio inox AISI 316L il più duro, resistente ed elastico tra gli acciai e della resina termoplastica poliammide 6, la più nobile. Sviluppiamo le nostre aree tematiche: le maniglie per porte e finestre, i maniglioni e i maniglioni con serratura, le balaustrate, le panchine ischiatiche e i supporti per il "vivere senza barriere", nella convinzione che gli oggetti dicano un ambiente, ne dichiarino il temperamento, le illusioni, le possibilità. Le forme "informano" e hanno effetti logici, modificano il mondo e dichiarano delle priorità. Per noi priorità è che – adesso – la bellezza è vera solo se si dà a tutti accessibile.

ENGLISH

If you've opened a door, you're bound to have seen a spectacular empty urban setting, or you may have strolled through environments free of annoying architectural barriers that block your way, and if you've done so – you've grasped our idea. We've made our name in AISI 316L stainless steel, the hardest, most resistant and elastic of steels, and in polyamide 6 thermoplastic resin, the noblest of plastics. We develop our themes: handles for doors and windows, pull handles, pull handles with lock, balustrades, ischial support benches and supports for "living without barriers", convinced that objects create an environment, its temperament, illusions, and possibilities. Forms "inform" and have logical effects, changing the world and establishing priorities. For us the priority is that – here and now – beauty is only real if it is accessible to all.

FRANCAIS

S'il vous est arrivé d'ouvrir une porte pour vous pencher sur un vide urbain spectaculaire, ou si vous eu l'occasion de parcourir des habitats libérés des obstacles irritants que représentent les barrières architecturales, alors vous avez pu saisir l'une de nos idées. Nous sommes la marque de l'acier inox AISI 316L le plus dur, le plus résistant et le plus élastique parmi les aciers, et de la résine thermoplastique polyamide 6, la plus noble. Nous développons nos différents thématiques: les poignées de portes et de fenêtres, les poignées de tirage et les poignées de tirage avec serrure, les garde-corps, les appuis ischiatiques et les supports afin de "vivre sans barrières", parce que nous sommes convaincus que les objets caractérisent un habitat en affirmant son tempérament, ses illusions et ses possibilités. Les formes "informent", elles ont des effets logiques, elles modifient le monde et déclarent des priorités. Pour nous, la priorité c'est que – maintenant – la beauté n'est authentique que si on la rend accessible à tous.

DEUTSCH

Wenn sie eine Tür öffnen, haben Sie entweder die Aussicht auf trübes, städtisches Einerlei oder es kann geschehen, dass sie sich durch Räume bewegen, die frei sind von irritierenden Hindernissen und architektonischen Barrieren. Dann halten Sie unsere Ideen in ihren Händen. Unseren „Brand“ AISI 316L in Edelstahl, der härteste, resistensteste und elastischste unter den Edeldstählen, sowie thermoplastischen Kunstharz Polyamid 6, der eleganteste Kunststoff. Unsere Weiterentwicklung umfasst alle Bereiche: Tür- und Fenstergriff, verschließbare Griffe, Handläufe und Geländer, variable Anlehnhilfen, sowie Hilfselemente für barrierefreies Leben. Wir sind der Überzeugung, dass die Objekte ein Ambiente kreieren sollen, welche dem Menschen die Möglichkeit gibt, sein Temperament, seine Träume und seine Fähigkeiten auszuleben und zu entfalten. Alle Formen sind logisch, schlüssig, sie sprechen für sich und verändern die Welt und ihre Umgebung durch ihre Vorzüge. Für uns hat Priorität, dass die Schönheit nur dann wahr ist, wenn sie auch für jeden erreichbar ist.

ESPAÑOL

Si ha abierto una puerta, se ha asomado a una baranda que da a una espectacular vista urbana o ha cruzado por lugares libres de esos enervantes obstáculos que crean las barreras arquitectónicas... en ese caso, se ha aferrado a una de nuestras ideas. Somos la marca del acero inoxidable AISI 316L – el más duro, el más resistente y elástico de los aceros – y de la poliamida 6 – la más noble de las resinas termoplásticas –. Desarrollamos nuestras áreas temáticas: las manillas para puertas y ventanas, los manillones con cerradura, las balaustradas, los apoyos isquiáticos y los soportes para una "vida sin barreras", convencidos como estamos de que los objetos hablan sobre un ambiente, declaran cuál es su temperamento, sus ilusiones, sus posibilidades. Las formas «informan» y tienen efectos lógicos, modifican el mundo y establecen prioridades. Nuestro pensamiento prioritario – ahora – es que la belleza es auténtica solamente cuando es accesible para todos.

NEDERLANDS

Als u een deur geopend hebt, als u zich voor een prachtige stadsleegte hebt bevonden, of als het u reeds overkomen is ruimtes te doorkruisen die vrij zijn van alle vervelende belemmeringen van architectonische barrières, dan zit u op onze golfengte. Wij zijn het merk van het roestvast staal AISI 316L, het hardste, meest bestendige en meest elastische van alle staalsoorten en van de thermoplastische polyamide 6, de nobelste van alle harssoorten. Wij ontwikkelen onze thema's: grepen voor deuren en vensters, voordeurgrepen en grepen met ingebouwde cilindrs, de balustrades, de ischiatische zitbanken en steunen voor het "leven zonder barrières", volgens de overtuiging dat de voorwerpen een omgeving verhalen, het temperament, de illusies en de mogelijkheden ervan verklaren. De vormen "geven informatie" en hebben logische gevolgen, wijzigen de wereld en stellen prioriteiten. Prioriteit is voor ons dat – nu – de schoonheid slechts waarlijk is wanneer ze voor iedereen toegankelijk is.

ITALIANO
PROGRAMMA IT

Maniglie, maniglioni e complementi in acciaio inox AISI 316L dalla forma essenziale realizzati con la collaborazione dei designer Tiberio Cerato e Mario Tassarollo.

Rigorosamente made in Italy.

Il Programma IT usa fissaggi che permettono il montaggio singolarmente o in coppia di tutti i modelli su qualunque tipologia di materiale (Legno, Metallo, PVC e Vetro).

Finitura standard: satinata.

Finitura a richiesta: lucida.

Maniglioni speciali a richiesta (art.xxx/A).

ENGLISH
PROGRAMMA IT

Lever handle, pull handles and accessories in stainless steel AISI 316L with a design evolved in collaboration with the designers Tiberio Cerato and Mario Tassarollo.

Precision manufactured in Italy. The Programma IT fixings permit simple or back to back installation on all models and have been designed to fit any type of material (wood, PVC, metal, glass).

Standard finishing: satin

Finishing by request: bright

Special pull handles on request (art.xxx/A).

FRANCAIS
PROGRAMMA IT

Bequilles, poignées de tirage et accessoires de finition en acier inoxydable AISI 316L avec une forme innovante réalisés avec la collaboration des designers Tiberio Cerato et Mario Tassarollo.

Exclusivement made in Italy. Les fixations du Programma IT peuvent être montées seules ou par paire sur tous les modèles et sur tout type de portes (bois, PVC, métal et verre).

Finition standard: satinée

Finition sur demande: polie

Poignées de tirage spéciales sur demande (art.xxx/A).

DEUTSCH
PROGRAMMA IT

Türdrücker, Baubeschläge und Stoßgriffen mit einem modernen Design und aus Edelstahl rostfrei Werkstoff 1.4404. Diese Serie ist das Ergebnis von der Mitarbeit der Architekten Tiberio Cerato und Mario Tassarollo und Made in Italy.

Das Programma IT ermöglicht entweder eine Einzel- sowie eine Paarweisebefestigung auf Türen und Sonderkonstruktionen aller Art (Holz, Kunststoff, Metall, Glas, Türrahmen aus Aluminium, usw).

Standardausführung: Matt satiniert

Hochglanz polierte Ausführung auf Anfrage lieferbar

Stoßgriffen mit einem Sondermass auf Anfrage lieferbar (art.xxx/A).

PROGRAMMA YOD

PHOTO: Gabriele Basilio

ITALIANO
PROGRAMMA YOD

Maniglie, maniglioni e complementi in legno e acciaio inox AISI 316L. Rigorosamente made in Italy.

Il Programma YOD usa fissaggi che permettono il montaggio singolarmente o in coppia di tutti i modelli su qualunque tipologia di materiale (Legno, Metallo, PVC e Vetro).

Finitura standard: satinata.

Finitura a richiesta: lucida.

DEUTSCH
PROGRAMMA YOD

Türdrücker, Baubeschläge und Stoßgriffen aus Holz und Edelstahl rostfrei Werkstoff 1.4404. Diese Serie ist Made in Italy.

Das Programma YOD ermöglicht entweder eine Einzel- sowie eine Paarweisebefestigung auf Türen und Sonderkonstruktionen aller Art (Holz, Kunststoff, Metall, Glas, Türrahmen aus Aluminium, usw).

Standardausführung: Matt satiniert

Hochglanz polierte Ausführung auf Anfrage lieferbar

ENGLISH
PROGRAMMA YOD

Lever handle, pull handles and accessories in wood and stainless steel AISI 316L. Precision manufactured in Italy. The Programma YOD fixings permit simple or back to back installation on all models and have been designed to fit any type of material (wood, PVC, metal, glass).

Standard finishing: satin

Finishing by request: bright

ESPAÑOL
PROGRAMMA YOD

Manillas, manillones y complementos en madera y acero inoxidable AISI 316L. Rigurosamente hecho en Italia. Las fijaciones del Programma YOD pueden montarse individualmente o a juego de tutti i modelli en puertas de cualquier tipología (madera, metal, PVC y cristal).

Acabados en serie: satinado

Acabados bajo petición: brillante

FRANCAIS
PROGRAMMA YOD

Bequilles, poignées de tirage et accessoires de finition en bois et acier inoxydable AISI 316L. Exclusivement made in Italy. Les fixations du Programma YOD peuvent être montées seules ou par paire sur tous les modèles et sur tout type de portes (bois, PVC, métal et verre).

Finition standard: satinée

Finition sur demande: polie

NEDERLANDS
PROGRAMMA YOD

Deurkrukken, accessoires en deurgrepen in hout en roestvast staal AISI 316L. Uitsluitend gefabriceerd in Italië. Het Programma YOD gebruikt bevestigingen die het mogelijk maken om iedere greep zowel enkel als per paar te bevestigen op elk materiaal (Hout, Metaal, PVC of glas).

Standaardafwerking: mat geborsteld

Afwerking op aanvraag: blinkend gepolijst

PROGRAMMA 200

PHOTO: Gabriele Basilico

ITALIANO
PROGRAMMA 200

Maniglioni tubolari di vario diametro in acciaio inox AISI 316L. Rigorosamente made in Italy. Il Programma 200 usa fissaggi che permettono il montaggio singolarmente o in coppia di tutti i modelli su qualunque tipologia di materiale (Legno, Metallo, PVC e Vetro). Finitura standard: satinata.

Finitura a richiesta: lucida.

Maniglioni speciali a richiesta (art.xxx/A).

ENGLISH
PROGRAMMA 200

Tubular pull handles available in a variety of diameters, manufactured in stainless steel AISI 316L.

Precision manufactured in Italy. The Programma 200 fixings permit simple or back to back installation on all models and have been designed to fit any type of material (wood, PVC, metal, glass).

Standard finishing: satin.

Finishing by request: bright.

Special pull handles on request (art.xxx/A).

FRANCAIS
PROGRAMMA 200

Poignées de tirage tubulaires de différents diamètres en acier inoxydable AISI 316L.

Exclusivement made in Italy. Les fixations du Programma 200 peuvent être montées seules ou par paire sur tous les modèles et sur tout type de portes (bois, PVC, métal et verre).

Finition standard: satinée.

Finition sur demande: polie.

Poignées de tirage spéciales sur demande (art.xxx/A).

DEUTSCH
PROGRAMMA 200

Stoßgriffe mit verschiedenen Durchmesser aus Edelstahl rostfrei 1.4404 Made in Italy.

Das Programma 200 ermöglicht entweder eine Einzel- sowie eine Paarweisebefestigung auf Türen und Sonderkonstruktionen aller Art (Holz, Kunststoff, Metall, Glas, Türrahmen aus Aluminium, usw). Standardausführung: Matt satiniert.

Hochglanz polierte Ausführung auf Anfrage lieferbar.

Stoßgriffen mit einem Sondermass auf Anfrage lieferbar (art.xxx/A).

ESPAÑOL
PROGRAMMA 200

Manillones tubulares de distintos diámetros en acero inoxidable AISI 316L.

Rigurosamente hecho en Italia. Las fijaciones del Programma 200 pueden montarse individualmente o a juego de tutti i modelli en puertas de cualquier tipología (madera, metal, PVC y cristal).

Acabados en serie: satinado.

Acabados bajo petición: brillante.

Manillones especiales bajo pedido (art.xxx/A).

NEDERLANDS
PROGRAMMA 200

Ronde buisvormige deurgrepen in verschillende diameters in roestvast staal AISI 316L.

Uitsluitend gefabriceerd in Italië.

Het Programma 200 gebruikt bevestigingen die het mogelijk maken om iedere greep zowel enkel als per paar te bevestigen op elk materiaal (Hout, Metaal, PVC of glas).

Standaardafwerking: mat geborsteld.

Afwerking op aanvraag: blinkend gepolijst.

Deurgrepen op maat op aanvraag (art. xxx/A).

PROGRAMMA 300

Maniglioni, maniglie e accessori in nylon in granulo colorato. Non si altera se esposto alla luce, alle intemperie ed in zona di mare. Mantiene costante resistenza meccanica in un intervallo di temperatura compreso tra -40°C e +90°C. Rigorosamente made in Italy. Il Programma 300 usa fissaggi che permettono il montaggio singolarmente o in coppia di tutti i modelli su qualunque tipologia di materiale (Legno, Metallo, PVC e Vetro). Maniglioni speciali a richiesta (art.xxx/A).

Colori standard: ● ○ ●

ENGLISH

PROGRAMMA 300

Pull handles, lever handles and accessories in through coloured polyamide. The polyamide remains unaffected by exposure to bad weather, light and sea air; maintaining its mechanical strength in temperatures varying between -40°C and +90°C. Precision manufactured in Italy. The Programma 300 fixings permit simple or back to back installation on all models and have been designed to fit any type of material (wood, PVC, metal, glass). Special pull handles on request (art.xxx/A).

Standard colours: ● ○ ●

**ITALIANO****PROGRAMMA 100**

Maniglioni in ottone lucidato e protetto da una vernice trasparente.
Rigorosamente made in Italy.

Il Programma 100 usa fissaggi che permettono il montaggio singolarmente o in coppia di tutti i modelli su qualunque tipologia di materiale (Legno, Metallo, PVC e Vetro).

Finitura standard: ottone lucidato e verniciato.

Maniglioni speciali a richiesta (art.xxx/A).

DEUTSCH**PROGRAMMA 100**

Stossgrieffen aus Messing. Messing hochglanzpoliert geschütz durch einen transparenten Lack. Made in Italy.

Das Programma 100 ermöglicht entweder eine Einzel- sowie eine Paarweisebefestigung auf Türen und Sonderkonstruktionen aller Art (Holz, Kunststoff, Metall, Glas, Türrahmen aus Aluminium, usw.).

Standardausführung: poliert und lackiert.

Stossgrieffen mit einem Sondermass auf Anfrage lieferbar (art.xxx/A).

ENGLISH**PROGRAMMA 100**

Pull handles in polished brass protected by clear powder coat.

Precision manufactured in Italy.

The Programma 100 fixings permit simple or back to back installation on all models and have been designed to fit any type of material (wood, PVC, metal, glass).

Standard finishing: brass polished and varnished.

Special pull handles on request (art.xxx/A).

ESPAÑOL**PROGRAMMA 100**

Manillones en latón pulido y recubierto de barniz transparente.

Rigurosamente hecho en Italia.

Las fijaciones del Programa 100 pueden montarse individualmente o a juego de tutti i modelli en puertas de cualquier tipología (madera, metal, PVC y cristal).

Acabados en serie: latón brillante y barnizado.

Manillones especiales bajo pedido (art.xxx/A).

FRANCAIS**PROGRAMMA 100**

Poignées de tirage en laiton poli et protégé par un vernis transparent. Exclusivement made in Italy.

Les fixations du Programma 100 peuvent être montées seules ou par paire sur tous les modèles et sur tout types de portes (bois, PVC, métal et verre).

Finition standard: laiton poli et vernis.

Poignées de tirage spéciales sur demande (art.xxx/A).

NEDERLANDS**PROGRAMMA 100**

Deurgrepen in gepolijst messing, beschermd door een onzichtbare vernislaag. Uitsluitend gefabriceerd in Italië.

Het Programma 100 gebruikt bevestigingen die het mogelijk maken om iedere greep zowel enkel als per paar te bevestigen op elk materiaal (Hout, Metaal, PVC of glas).

Standaardafwerking: verniste gepolijste messing.

Deurgrepen op maat op aanvraag (art. xxx/A)

PROGRAMMA PVD

ITALIANO

PROGRAMMA PVD

Maniglioni in inox (PVD): acciaio inossidabile AISI 316L rivestito di purissimo Nitruro di Zirconio (ZrN).

Massima resistenza alla corrosione. Rigorosamente made in Italy. Il Programma PVD usa fissaggi che permettono il montaggio singolarmente o in coppia di tutti i modelli su qualunque tipologia di materiale (Legno, Metallo, PVC e Vetro).

Finitura standard: acciaio inox con trattamento PVD.

DEUTSCH

PROGRAMMA PVD

Stahl Werkstoff 1.4404/Messing (Physical Vapor Deposition) Stahl Werkstoff 1.4404/Messing beschichtet mit Zirkonium Nitrid. Abrieb und Korrosionsbeständigkeit.

Made in Italy.

Das Programma PVD ermöglicht entweder eine Einzel- sowie eine Paarweisebefestigung auf Türen und Sonderkonstruktionen aller Art (Holz, Kunststoff, Metall, Glas, Türrahmen aus Aluminium, usw).

Standardausführung: Edelstahl mit Zirkoniumbeschichtung.

ENGLISH

PROGRAMMA PVD

Steel brass (PVD): stainless steel AISI 316L coated with ultra pure Zirconium Nitride (ZrN).

Maximum resistance to corrosion. Precision manufactured in Italy. The Programma PVD fixings permit simple or back to back installation on all models and have been designed to fit any type of material (wood, PVC, metal, glass).

Standard finishing: stainless steel with PVD coating.

ESPAÑOL

PROGRAMMA PVD

Inox (PVD): acero inoxidable AISI 316L revestido con purísimo Nitruro de Zirconio (ZrN). Máxima resistencia a la corrosión. Rigurosamente hecho en Italia.

Las fijaciones del Programa PVD pueden montarse individualmente o a juego de tutti i modelli in puertas de cualquier tipología (madera, metal, PVC y cristal).

Acabados en serie: acero inoxidable con tratamiento PVD.

FRANCAIS

PROGRAMMA PVD

Inox (PVD): acier inoxydable AISI 316L revêtu de Nitruro de Zirconium (ZrN) très pur.

Résistance maximum à la corrosion. Exclusivement made in Italy. Les fixations du Programma PVD peuvent être montées seules ou par paire sur tous les modèles et sur tout type de portes (bois, PVC, métal et verre).

Finition standard: acier inoxydable avec traitement PVD.

NEDERLANDS

PROGRAMMA PVD

Inox (PVD): roestvast staal AISI 316L behandeld met de allerzuiverste zirkoniumstikstof (ZrN).

Allerhoogste roestweerstand. Uitsluitend gefabriceerd in Italië.

Het Programma PVD gebruikt bevestigingen die het mogelijk maken om iedere greep zowel enkel als per paar te bevestigen op elk materiaal (Hout, Metaal, PVC of glas).

Standaardafwerking: roestvast staal met PVD behandeling.
