Antimicrobial Copper

ANTIMICROBIAL COPPER CU+ è il marchio che viene conferito ai prodotti antibatterici fatti in lega di RAME. I prodotti con il marchio ANTIMICROBIAL COPPER hanno le proprietà antibatteriche ad ampio spettro del RAME, riconosciute e dimostrate in laboratorio e confermate nei clinical trial. Il RAME riduce in modo continuativo e mai esaurito la contaminazione batterica in ambienti clinici.

ANTIMICROBIAL COPPER CU+ is more than just a brand, it's a term used to describe antibacterial products made of COPPER alloy. ANTIMICROBIAL COPPER products have broad-spectrum antibacterial properties, acknowledged and proven in laboratory tests, and confirmed in clinical trials. COPPER continuously reduces bacterial contamination in clinical environments and has excellent durability properties.

ANTIMICROBIAL COPPER CU+ est la marque conçue pour les produits antibactériens réalisés en alliage de CUIVRE. Les produits marqués ANTIMICROBIAL COPPER ont des propriétés antibactériennes à large spectre bien connues, démontrées en laboratoire et confirmées par les essais cliniques. Le CUIVRE réduit de manière continue et durable la contamination bactérienne dans les milieux cliniques.

ANTIMICROBIAL COPPER CU+ ist mehr als eine Marke – es ist ein Begriff für antibakterielle Produkte aus KUPFER. Produkte mit dem Markenzeichen ANTIMICROBIAL COPPER beinhalten ein breites Spektrum antibakterieller Eigenschaften, in Labortests bewiesen und durch klinische Versuche bestätigt. KUPFER reduziert im Bereich von Kliniken permanent die bakterielle Kontamination und behält seine selbstdesinfizierende Wirkung über Jahrzehnte.

In principio la luce poi, il calore delle brune tonalità infine, l'apparire del verde. Il Rame cambia, vira nel colore e regala agli oggetti l'estetica di mille vite. Cambia pelle ma la forza di combattere le infezioni e resistere agli agenti atmosferici, questa, rimane una e sempre.

In the beginning there is light, then the warmth of soft brown tones, and finally the growth of green. Copper changes through a range of colours, bringing objects to life a thousand times. It changes skin, but the strength to resist infections and atmospheric agents lasts forever.

Tout d'abord le brillant, puis la chaleur des tonalités brunes et enfin l'apparition du vert. Le cuivre change, vire de couleur et apporte aux objets une esthétique aux mille facettes. Il mue sans cesse mais sa capacité à résister aux contaminations et aux agents atmosphériques demeure.

Am Anfang hell, dann warme Brauntöne und schließlich Grün - Kupfer ändert sich, wechselt seine Farbe und verleiht den Gegenständen eine Ästhetik mit unendlicher Lebensvielfalt. Es ändert sein Aussehen, aber seine Infektionsbeständigkeit und Wetterfestigkeit bleiben immer erhalten.

INFORMAZIONI TECNICHE - TECHNICAL INFORMATION - INFORMATIONS TECHNIQUES - TECHNISCHE INFORMATIONEN

ROSETTE

Rosette tonde con molla di ritorno.
Sottorosetta in materiale plastico isolante e coprirosetta in rame.

ROSES

Round roses with a return spring.
Inner rose in plastic non-conductor material and rose cover in copper.

ROSACES

Rosaces rondes avec ressort de rappel.
Sous-construction de rosace en plastique isolante et cache-rosace en cuivre.

TÜRDRÜCKERROSETTEN

Drückerrossette mit Rückholfeder rund.
Innenrossette aus Isoliernylon. Abdeckkappe aus kupfer.

ROSETTE

Rosette tonde con molla di ritorno per fissaggio contrapposto. Utilizzano serrature con fori a interasse 38 mm. Sottorosetta in materiale plastico isolante e coprirosetta in rame.

ROSES

Round roses with return spring for double fitting which use locks with an central hole of 38 mm. Inner rose in plastic non-conductor material and rose cover in copper.

ROSACES

Rosaces rondes avec ressort de rappel pour fixation opposée. En utilisant des serrures avec entraxe de perçement de 38 mm. Sous-construction de la rosace en plastique isolante et cache-rosace en cuivre.

TÜRDRÜCKERROSETTEN

Drückerrossette mit Rückholfeder und Durchschraubung 38 mm.
Innenrossette aus Isoliernylon. Abdeckkappe aus kupfer.

MANIGLIA PER FINESTRA

Meccanismo in acciaio galvanizzato con fermo a scatti ogni 90°. Ø 7 mm disponibile con sporgenza da 35 mm (su richiesta 40 - 45 mm). Copri meccanismo in rame.

WINDOW HANDLE

A mechanism in galvanized steel with a notch every 90°. Ø 7 mm available with 35 mm boss (upon request 40 - 45 mm). Mechanism cover in copper.

BEQUILLES DE FENETRES

Mécanisme en acier galvanisé avec butée à dé clic tous les 90°. Ø 7 mm existe avec saillie de 35 mm (à la demande de 40 - 45 mm). Couvre-mécanisme en cuivre.

FENSTERGRIFFE

Fenstergriffe mit Rastung 90°, mit Nocken, Vierkantstift 7 mm, Bohrungsabstand 43 mm, 35 mm vorstehend als Standard (auf Anfrage von 40 bis 45 mm). Abdeckkappe aus kupfer.

BOCCHETTE

Sottobocchetta in resina poliammidica: altezza 9,5 mm. I copri bocchetta sono in rame.

ESCUTCHEONS

Inner escutcheons in polyamide resin: height 9,5 mm. Escutcheons covers in copper.

ENTREES CLE

Sous-construction de la rosace en résine polyamide: hauteur 9,5 mm. Cache-rosace en cuivre.

ROSETTEN

Innenrossetten aus Kunststoff: Höhe 9,5 mm. Abdeckkappe aus kupfer.

PLACCHE

Placche rettangolari-quadre in rame, spessore 2 mm.

PLATES

Plates: rectangular-square in copper, thickness 2 mm.

PLAQUES

Plaques rectangulaires-carrées en cuivre, épaisseur 2 mm.

TÜRSCHILDER

Breitschild, Langschild aus kupfer, Stärke 2 mm.
